Section 2: OBJECTIVES OF THE FISHING POINTS SYSTEM

2.1 The objectives of the Fishing Points System are:

- 2.1.1 Easy for everyone, i.e. easy for Members to understand and participate in; easy for Members to report their results; easy for Division and Trip Captains to collect and report results, and easy for the Recorder to receive results, tally points and report results in a timely and regular fashion
- 2.1.2 Being respectful of aquatic life and any preferences for 'catch and release' fishing, i.e. avoid the need to measure every single fish)
- 2.1.3 Providing Members with a balance of competition, luck, and fun including a system whereby any single division is not grossly advantaged in achieving the Club Champion Trophy
- 2.1.4 Rewarding varied and adaptable angling, i.e. capture of different species in varying situations and environments
- 2.1.5 Making fishing attractive and supportive for relatively inexperienced Members, i.e. reward participation, ensure fishing is fun and contains an element of luck
- 2.1.6 Enticing Members and new Members (who may join part way into the fishing year) and who, therefore, may miss several fishing trips), to still be in contention to win a Trophy. Accordingly, winning the major Club Champion Trophy shall be reasonably achievable for Members that may only be able to attend a maximum of ten (10) trips per year
- 2.1.7 Easy for Members to view results which are to be updated at least monthly.

Section 3 POINTS ALLOCATION

3.1 For all Divisions, Members may earn points for scheduled Club Fishing Trips as follows:

- 3.1.1 Attendance Points: One (1) point per Trip; and
- 3.1.2 Fish Caught: One (1) point per 'Eligible Fish' (as provided for in the By-Laws (Rules) up to a maximum of five (5) fish for each 'Eligible Species'. However, In the case of the Freshwater Division, a maximum of ten (10) of each 'Eligible Species' may count; and
- 3.1.3 Target Species: One (1) bonus point per "Eligible Fish" nominated as a "Target Species" (as provided for in the By-Laws (Rules); and
- 3.1.4 Largest of Species: One (1) bonus point for the largest 'Eligible Fish' by length for each "Eligible Species' per Trip'

3.2 With regard to awarding the Club Champion Trophy and Junior Champion Trophy, a member's best ten (10) trips will count subject to a maximum of five (5) Trips from any single Division.

3.3 For the Champion Boat Trophy this shall be awarded to the best boat owner or best boat captain as determined by the Club Captain from a shortlist of at least three (3) worthy candidates nominated by the Recorder. Consideration is to be given in approximate order of:

- a) Variety of Divisions fished subject to a minimum of having fished two (2);
- b) Number of events fished;
- c) Overall and average of fishing results of boat captain and crew; and
- d) Encouragement of new Members and/or Juniors.

3.4 For Divisional Trophies relating to 'most points', a Member's best five (5) trips in that Division will count.

3.5 Points may only be awarded to Members for Trips they have given proper notice of their intent to attend and where the Trip takes place. The exception to this is Attendance Points may still be awarded if a Member turns up to fish and the Trip is cancelled by the Trip Captain (or Divisional Captain) shortly before the planned commencement time

3.6 Long Trips (i.e. more than 24 hours) shall be considered a single trip

3.7 For a Trip to be considered an 'official' Trip, the minimum number of Members required to attend and fish is two (2) except for Charter Boat (Deep Sea) Trips which shall be four (4) and for Small Boats (Deep Sea) Trips at least two (2) vessels with Members

3.8 There must be at least three (3) 'official' Trips in a Division in the relevant fishing year for applicable Trophies to be awarded

Section 4: FISHING RULES & POINTS CRITERIA

4.1 Members must always abide by the relevant rules, regulations, and authorised directions of local authorities such as the NSW Government's Department of Primary Industries (DPI/NSW Fisheries). **Note:** Fishing techniques, legal fish size, bag limits and restrictions on number of fish in possession may vary with location.

4.2 Eligible Fish: Comprise bony finfish caught by hook and fishing line and are legally able to be kept subject to complying with criteria set out in these By-Laws (Rules)

4.5 Counting, Measuring & Verifying Fish Captures

4.5.1 In the spirit of 'catch and release' fishing, fish caught on a Club Trip do not need to be 'weighed-in' or measured at a central point to count for points towards Trophies

4.5.2 Any fish to be measured, including of fish of marginal size or 'Fish-of-Significance' or 'trophy' fish, shall be measured by length from the tip of mouth (with mouth closed as much as practical) to furthest tip of the tail and to be rounded down to the nearest centimetre (cm)

4.5.3 For 'Fish-of-Significance' to be counted, the 'Photo System' must be used, and the Trip Captain and Recorder are to be provided with corroborative photographs. 'Fish-of-Significance' include largest species from a Trip and 'trophy' fish (including largest fish of a species for the year or a Club record)

4.5.4 For 'regular' fish captures to count towards Club Trophies (i.e. other than 'Fish-of-Significance'), evidence of fish caught may be via the Photo System or via the Buddy System

4.5.5 The 'Photo System' incorporates the following: -

- a) the use of a photographic device (i.e. camera, mobile phone, Go-pro) to record and clearly identify the fish species; and
- b) the use of a suitable measuring stick or brag-mat in conjunction with a photographic device to clearly identify the length of a fish species; and
- c) photographs are to be made available to the Trip Captain (and Division Captain if requested) and the Recorder within a two (2) week period after the relevant Trip

4.5.6 The 'Buddy System' involves a Member following the below process: -

- a) witnessing the capture of the relevant fish;
- b) verifying the fish captured as an Eligible fish species.
- c) verifying fish length (rounded down to the nearest centimetre); and
- d) ensuring fish capture details are correctly reported.

4.6 Reporting Fish Capture Results:

4.6.1 Who

- a) Individual Members are responsible for reporting their results in an acceptable form to the Trip Captain
- b) The Trip Captain is responsible for reporting the Trip results in an acceptable form to the Recorder. This shall ordinarily be via the relevant Trip Sheet downloadable from the Club's website.

4.6.2 What

- a) List of fish species (ideally in alphabetical order)
- b) Quantity of each fish species and lengths rounded down to the nearest centimetre
- c) Largest of each species if thought to be a possible contender for biggest of species for the year or trip (only relevant if bonus points or extra prizes are applicable)
- d) Highlight any possible contenders for Club records

For example, Bream x2 (30cm, largest 35cm); Flathead-Dusky x1 (largest 60cm), Flathead-Sand x3 (40cm, 43cm, largest 55cm), Mulloway (Jewfish) x1 (105cm, possible Club record).

4.6.3 Communications/Media

- a) The Recorder and Trip Captain are to advise (preferably in advance) what media options they require to receive fish capture results, such as paper, email, WhatsApp or SMS
- b) The 'default' medium for the Recorder to receive fishing Trip results shall be via: ***recorder@castlehillrslfishingclub.org.au***

4.7 Fishing Techniques and Catching of Fish

4.7.1 Hooks and Fishing Line: No more than two (2) fishing lines (only one (1) for Charter Boat) may be used at any one time

4.7.2 Hook Configuration: Each line shall have no more than two (2) hooks or have a 'flight of hooks' attached. (A flight of hooks is defined as 'a number of hooks which are ganged or individually fastened to a line for the purpose of securing a single bait')

4.7.3 Landing or Boating Fish: Only fish landed or boated with a hook and line attached are eligible unless the fish is detached in the process of netting or gaffing

Section 5 CLAIMING CLUB RECORDS

5.1 Club records may be claimed for any fish species caught on any Club outing providing the fish species can be positively identified and there is compliance with the Club's Constitution including these By-Laws (Rules)

5.2 To claim the largest fish of the species for Club Trips and Club Records, the 'Photo System' as afore mentioned must have been used.

Section 6 TRIP NOTICES & NOTICES TO ATTEND

6.1 General Communication of Trip Notices: The Club's electronic Google Calendar shall be the official Calendar for general communication of all events including fishing Trips. A link to the Club's Calendar shall ordinarily be available via the Club's website. Divisional Captains (and Trip Captains) are expected to ensure the Club Calendar is updated with Trips planned or cancelled as soon as practical

6.2 Targeted Communication of Trip Notices: Trip notices shall ordinarily be provided to all Members who have expressed interest in the relevant fishing Division. This shall ordinarily be via interested Members' nominated email addresses primarily, and/or via SMS and/or via any other generally accepted method of communication for the relevant Division, such as a dedicated WhatsApp Group

6.3 Timing of Trip Notices: Trip notices shall ordinarily be available to all Members at least seven (7) days in advance. In exceptional circumstances, Trip Notices may be provided at shorter notice, provided the Club Calendar is updated and most Members who are known to fish in the relevant Division are advised at least twenty-four (24) hours in advance via a targeted communication method noted above

6.4 Notices to Attend: Members intending to attend fishing Trips are to advise the relevant Trip Captain with advance notice and communication medium suitable to the Trip Captain. Not doing so shall ordinarily exclude the Member from participating in the Points Score System and subsidies for that Trip, subject to the discretion of the relevant Trip Captain or Divisional Captain

Section 7 COMPLAINTS, CHALLENGES & NON-COMPLIANCE

7.1 Any complaint or challenge relating to the interpretation or application of these fishing By-laws (Rules) and points scoring allocated for a particular fishing Trip shall be made as soon as practical and within seven (7) days of a fishing Trip to the Trip Captain (otherwise Divisional Captain). The Trip Captain (otherwise Divisional Captain) shall obtain all relevant information including liaising with all parties lodging the complaint and advise a determination as soon as practical and within a further fourteen (14) days from receipt of the complaint. For extenuating circumstances (such as the Trip Captain or Divisional Captain being a party related to the complainant), parties to a complaint may brief the Club Captain and request their involvement in the determination

7.2 Serious complaints, challenges and appeals relating to the interpretation or administration of these By-Laws (Rules) may be made in writing to the Committee whose determination shall be final

7.3 Breach of By-Laws (Rules): Any Member found to be in breach of these By-Laws (Rules) will not be eligible for any points for the relevant Trip and further penalties may be imposed by the Committee such as suspension from future events.
